## SCIENCE WEEK CELEBRATION

“The art and Science of asking questions,  
is the source of all knowledge”

The Science week celebrated in school from August 22 to 26, 2022. As part of this celebration many Science activities and competition were held during the week. Science week aim to inculcate in the mind of young students a spirit of scientific enquiry, analytical thinking. All students participated with a lot of enthusiasm. The topics of the Science week were-

### Grade I to III – Parts of plants

Our Anthonians represented this topic in different ways. Our little birds got a chance to observe, learn and explore several interesting aspects of Science.

# Grade IV to V - Photosynthesis/ plant life cycle

All the students eagerly participated in these activities. These activities not only helped students to revise the concept done so far but also gave them a platform to develop their fine motor, social, cognitive and linguistic skills.

## Grade VI to VIII- Quiz competition:-

The aim of Science-quiz competition is to develop scientific temper in young minds. All students participated with lot of excitement and enthusiasm.

**School Principal Sr. Abha appreciated the efforts put by students and teachers.**
